

Lipitec® Piggy

Vegetable fat for piglets

- **Lipitec Piggy is a sprayed vegetable fat (from palm oil), developed especially for improved daily gain in piglets**
- **Lipitec Piggy can be fed in pure form or used in compound feed**
- **Lipitec Piggy is based on saturated triglycerides, which are added mono/diglycerides, to improve emulsifying properties and digestibility**
- **VLOG verified**

Typical analyses:

Crude fat:	Min. 99 %
Moisture and impurities:	Max. 1 %
Fatty acids, % of crude fat:	88 %
Free fatty acids (FFA)	Max. 3 %
Iodine value:	Max. 4
Melting point:	57° C
Ni content:	<5 ppm
Colour:	Light yellow/white
Energy:	35.0 MJ

Fatty acid profile:

C _{14:0} (myrestic acid):	2 %
C _{16:0} (palmetic acid):	43 %
C _{18:0} (stearic acid):	51 %
C _{18:1} (oleic acid):	2 %
C _{18:2} (linolic acid):	<1 %
Others:	2 %

Recommended use:

Lipitec Piggy can be fed directly or upon other feed. Recommended daily supply for piglets:	
0-2 weeks after weaning:	50 gram (or 5 % in weaner feed)

Can be delivered in small bags or big bags.

Keep dry and out of direct sunlight. Expiry date: 1 year from production.
